SUMMARY

Results-driven Software Development Engineer – Backend with 3.5+ years of experience building and scaling high-performance web applications using Python, Django, and Django REST Framework (DRF). Proven expertise in RESTful API design, asynchronous processing with Celery & Redis, multi-database architecture (PostgreSQL & MSSQL), and LLM integration (Claude, Gemini, OpenAI) for AI-powered title generation, meta description generation, and automated keyword research. Experienced with OAuth 2.0, JWT, Elasticsearch, AWS (S3, SES, SNS), and third-party platforms including Stripe, Zoho CRM, and Gmail API. Strong focus on API security, clean code, and scalable backend architecture.

SKILLS

- **Languages & Frameworks:** Python, Django, Django REST Framework (DRF), REST API, FastAPI, Django WebSockets, HTML, CSS, Bootstrap
- **AI / LLM:** LLM Integration, OpenAI API (ChatGPT), Claude API (Anthropic), Gemini API (Google), Cursor
- **Databases:** PostgreSQL, MSSQL, SQLite, Elasticsearch
- **Cloud & Async:** AWS Services (S3, SES, SNS), Celery, Redis, Linux, Windows
- **Auth & Security:** OAuth 2.0 / SSO (Google, Microsoft), JWT Authentication, RBAC, API Security
- **Integrations & Tools:** Stripe, Zoho CRM, Gmail API, Git, GitHub, Postman, DRF Localization, Resend, Zoho email

PROFESSIONAL EXPERIENCES

- SDE I - Backend**, *Infidigit* 

Nov 2024 – present | Mumbai, India
- Engineered scalable RESTful APIs using Django REST Framework (DRF) for SEO modules including Rank Tracker, Keyword Research, SEO Audit, Workspace, AI Overview, AI Insights, and SEO Forecasting.
 - Integrated LLMs (OpenAI GPT, Claude, and Gemini) to enable AI-powered title generation, meta description generation, and automated keyword research, significantly reducing manual content creation effort.
 - Optimized Elasticsearch indexing and search algorithms to deliver high-performance, real-time keyword analytics across large-scale datasets.
 - Implemented Microsoft OAuth 2.0 Single Sign-On (SSO) for secure enterprise authentication and authorization.
 - Configured multi-database architecture (PostgreSQL and MSSQL) within a Django application to support seamless cross-system data operations.
 - Architected cross-repository Django ORM model sharing and integrated Django models into FastAPI microservices, improving modularity and code reuse.
 - Strengthened backend security by validating and restricting external URL access, reducing the risk of unauthorized database access and malicious requests.
- Software Developer**, *Crossdev Technologies (Gloify)* 

Jan 2023 – Oct 2024 | Bengaluru, India
- Designed and developed scalable RESTful APIs using Django REST Framework (DRF), implementing JWT authentication and Role-Based Access Control (RBAC) for 18+ user roles.

- Integrated Stripe Payment Gateway for international payments and Zoho Bigin CRM using REST APIs and webhooks to automate real-time lead management.
- Integrated Gmail API to automate email workflows, campaign scheduling, and domain/email verification.
- Architected asynchronous task pipelines using Celery and Redis, improving background job execution and application scalability.
- Integrated AWS services including S3, SES, and SNS to support secure file storage, transactional emails, and event-driven notifications.
- Implemented multilingual support using DRF Localization and integrated exchange rate APIs to enable seamless internationalization.

Percept Infosystem, Python/Django Intern

Jul 2022 – Dec 2022 | Nagpur, India

- Built and maintained Django web applications using MVT architecture, leveraging Django ORM, class-based views (CBVs), and template rendering.
- Designed relational database schemas using PostgreSQL and SQLite, writing optimized queries to ensure data integrity and efficient performance.
- Developed dynamic, data-driven web pages using Django templates, forms, and ORM, building a strong foundation in Python web application development.

PROJECTS

Infigrowth , *SEO Intelligence Platform*

AI-powered SEO SaaS platform with rank tracking, keyword research, LLM-driven title & meta description generation, and automated SEO audit reporting for digital marketers.

Tech Stack : Python, Django, DRF, LLM (Claude/Gemini/OpenAI), Elasticsearch, PostgreSQL, MSSQL, FastAPI

Discovemail , *Email Marketing & Lead Generation SaaS*

Lead generation platform with LinkedIn scraping, email/domain verification, campaign scheduling, and Stripe-powered billing. Reduced outreach setup time through end-to-end automation.

Tech Stack : Python, Django, DRF, Celery, Redis, AWS S3/SES, Stripe, Gmail API

Ciao Green , *Interior Design Management System*

Enterprise management system supporting 18+ user roles with RBAC, lead/project management, vendor coordination, asset tracking, BOQ generation, and Zoho CRM integration.

Tech Stack : Python, Django, DRF, PostgreSQL, Zoho CRM, Webhooks

Rapid One , *Workplace Health & Safety Platform*

WHS & HR compliance platform with digital document workflows, AI-assisted safety audits, background verification, and real-time compliance tracking.

Tech Stack : Python, Django, DRF, AWS, Celery, Redis

Apna Naukari, Job Portal Web & Mobile App

Role-based job search and recruitment portal for job seekers and employers with JWT auth, job listings, applicant management, and AWS-integrated storage and email.

Tech Stack : Python, Django, DRF, PostgreSQL, AWS S3/SES, JWT

EDUCATION

B.E. in Computer Science and Engineering

2016 – 2020 | Amravati, Maharashtra

Sant Gadge Baba Amravati University
